

TEJAS KAREKAR

SOFTWARE DEVELOPER | DATA SCIENCE & MOBILE APPLICATION SPECIALIST

Maharashtra, India | +91 7768082595 | tejaskarekar17@gmail.com

[LINKEDIN](#) | [GITHUB](#) | [PORTFOLIO](#)

PROFESSIONAL SUMMARY

- Android Developer with 1+ year of professional experience building native Android applications using Kotlin, Java, Android SDK, XML, REST APIs, Firebase, and Gradle.
- Experienced in application development, backend integration, debugging, performance optimization, SDLC execution, and Google Play Console deployment.
- Strong software engineering foundation with additional experience in Python, machine learning, and data-driven applications.

TECHNICAL SKILLS

- Programming Languages:** Java, Kotlin, Python, Dart, SQL (MySQL, SQL Server), HTML5, CSS3, JS
- Mobile Development:** Android SDK, Kotlin, Java, Jetpack Compose, Jetpack Components, MVVM, XML, Flutter, Dart, REST APIs, JSON, Gradle
- Data Science & Analytics:** Pandas, NumPy, Scikit-learn, Machine Learning Pipelines, Predictive Analytics, Power BI
- Backend & Database:** Firebase Authentication, Cloud Firestore, REST APIs, MySQL
- Tools, Platforms & Cloud:** Android Studio, Git, GitHub, Google Play Console, Gradle, VS Code, Google Cloud Platform (GCP)

PROFESSIONAL EXPERIENCE

Android Developer | Infoyashonand Technology Pvt. Ltd. — Sangli, MH

08/2025 – 07/2026

- Led cross-functional development teams of 4+ engineers across full Software Development Life Cycle (SDLC) for enterprise mobile apps.
- Architected native Android applications using Java, Kotlin, and XML, reducing application response latency by 20% and enhancing UI/UX.
- Managed Google Play Console publishing workflows, successfully deploying production applications following strict CI/CD and security standards.
- Engineered secure RESTful API integrations and backend communication protocols to scale mobile product feature delivery on schedule.

Python Developer Intern | YBI Foundation — Kolhapur, MH

08/2024 – 09/2024

- Engineered an intelligent Movie Recommendation System leveraging Python, Pandas, NumPy, and Scikit-learn machine learning algorithms.
- Implemented content-filtering logic and string-matching algorithms, increasing recommendation accuracy and user relevance by 15%.
- Streamlined data preprocessing pipelines and automated Exploratory Data Analysis (EDA) tasks, accelerating data ingestion speeds by 25%.

IT Assistant Trainee | Ecom Computers — Guhagar, MH

07/2022 – 08/2022

- Deployed automated patch management and security strategy across 30+ client workstations, mitigating vulnerability risks by 35%.
- Standardized IT deployment workflows for software installation, cutting initial workstation setup and deployment time by 40%.
- Resolved 50+ technical support tickets involving hardware maintenance, operating system troubleshooting, and network configuration.

EDUCATION

Masters in Data Science and Management | IIT and IIM Indore

08/2026 - present

- *Specialization: Advanced Analytics, Machine Learning & Business Strategy*

B.Tech in Computer Science Engineering | Dr. D. Y. Patil Agriculture & Tech. Univ., Talsande

07/2026

- *Academic Performance: 9.8 CGPA*

Diploma in Computer Engineering | Government Polytechnic Ratnagiri

06/2023

- *Grade: First Class*

Secondary School Certificate (SSC) | Smt. R. P. P. Vidyalaya Palshet, Guhagar

03/2020

- *Score: 84.00%*

KEY PROJECTS

- **Bramhastra - Motivational & Personal Growth Android App** : ([View on Google Play](#))

TechStack : Android | Java | XML | Firebase Authentication | Cloud Firestore | Jetpack Components | Video Upload & Playback

- Developed a motivational and personal-growth Android application providing users with video content from motivational speakers, life coaches, and success mentors.
- Implemented video upload and content management functionality to allow motivational videos to be added and made available within the application.
- Developed video browsing and playback functionality for users to watch motivational and self-improvement content.

- **Krivisha – Enterprise Operations & Inventory App** : ([View on Google Play](#))

TechStack : Android | Flutter | Dart | Flutter UI | MySQL | Firebase | MVVM Architecture

- Developed an enterprise mobile application for managing orders, production activities, inventory, logistics, and employee operations.
- Developed production and plant tracking functionality for monitoring production lists, batches, bundles, and article specifications.
- Supported secure employee access with role-based functionality for departments such as Transport and Production.

- **Saumitra – Smart Loyalty & Rewards App**: ([View on Google Play](#))

TechStack : Android | Flutter | Dart | Flutter UI | Kotlin | Jetpack Compose | MVVM | Firebase FCM

- Developed a smart loyalty and rewards mobile application connecting customers with local merchants and enabling users to earn points on purchases.
- Built responsive and user-friendly mobile interfaces using **Flutter and Dart**, with selected Android modules developed using **Kotlin, Jetpack Compose, and MVVM architecture**.
- Developed the application as a customer-focused rewards platform connecting users with local businesses and their offers.

CERTIFICATIONS & ACHIEVEMENTS

- Android Mobile App Training Certification – Educba
- Software Engineering Job Simulation – Goldman Sachs
- Essentials of Solution Development in IT (NSQF Level 5) – NASSCOM Certified
- Machine Learning Pipelines with Azure ML Studio – United Latino Students Association
- Data Visualization Job Simulation – Tata Group & Forge
- All India Rank 2700 in Naukri Campus Aptitude Test (NCAT)
- All India Rank 4893 in Common Internship Test (CIT)
